## **Guidance on vulnerable children and young people**

New guidance has been published answering some of your frequently asked questions about the provisions being made for vulnerable children and young people. This covers children and young people:

- supported by the child social care system

## **Guidance on isolation for residential educational settings**

We have also published guidance about isolation for residential educational settings:

The guidance supports the management of children and young people in residential educational settings, including boarding schools, residential special schools and specialist colleges and children's homes.

## **How to submit the daily online attendance return to DfE**

We are asking most educational settings to temporarily change their attendance recording practices. These settings are asked to complete a short online form by 12:00 each weekday, notifying the Department for Education about their status regarding COVID-19.

A record of attendance spreadsheet, which will help you calculate the numbers we require for the online form, can be downloaded from the first link below. This spreadsheet itself does not need to be submitted.

The record of attendance spreadsheet, and a list of which educational settings need to complete the online form, is available at:

- <https://www.gov.uk/government/publications/coronavirus-covid-19-attendance-recording-for-educational-settings>

The online form, that most educational settings are asked to

complete, can be found at:

## **Cyber security guidance to ensure your school's IT teams and providers are prepared for an increase in home working**

The National Cyber Security Centre has published new guidance which:

- recommends cyber security steps to take if your organisation is introducing (or scaling up the amount of) home working

## Handwashing advice

The most important thing individuals can do to protect themselves is to wash their hands more often, for at least 20 seconds, with soap and water. Public Health England recommends that in addition to handwashing before eating, and after coughing and sneezing, everyone should also wash hands after using toilets and travelling on public transport.

The latest guidance and video on hand washing can be found here:
