Dear Mr Hannon

My name is Bayley and I am a year 6 student at Emerson Valley School. I am writing to highlight the amount of litter on and around Rusland Circus, Emerson Valley.

First of all, there is only one bin which is constantly full. One bin is not enough. Various people attempt to deposit their waste but due to the fact that it is full. As a result, people just drop their rubbish on the ground which then get blown towards animals which assume it is food or, blow onto people's gardens, therefore lowering morale.

On the topic of lowered morale, residents of the surrounding areas might be affected. If other areas are also affected then there will be a significant decrease in popularity: which will result in quite a few people feeling sad, upset or angry.

---

IF animals try to consume litter, they might be severely injured or worse. IF wounded animals are walking around the area then people will be sad and feel bad for the animals even if they are rats, IF people feel bad for rats and try to make them better, they might get diseases.

In conclusion, we need more bins around Rusland Circus otherwise, I fear our problem will become worse until eventually there is no going back and selfish people will continue littering.

Thank you for your time,  
Bayley
