Civic Offices,
1 Saxon Gate East,
Central Milton Keynes,
MK9 3EJ

Dear Dr Heath,

My name is Rachel, a student from Emerson Valley School in Year 6. I am writing to you as I am concerned about the number of bins and am requesting more bins around Rusland Circus, Emerson Valley.

Firstly, one bin, which is constantly full, is not enough for the entire area of Rusland Circus. This bin is always overflowing and no one seems to be emptying it out. This results into people dropping their litter onto the ground which is unsanitary and makes Emerson Valley (maybe even the whole of Milton Keynes) look displeasing. I have seen people attempt to throw litter into the bin but were unable to due to the fact, that the bin is always full. We ask you just to add three or four more bins on Rusland Circus, so that Emerson Valley and the whole of Milton Keynes will look welcoming. One bin is

just not enough!

Secondly, animals health is extremely valuable to the environment and they are just as important as us humans. I am sure you are aware of sea animals dying with the amount of plastic in the ocean, do you want land animals to suffer the same way? Animals consume the litter by mistake which could affect their health and give a possibility of death for them. Many animals species are becoming extinct, do you want more species to become endangered just because you are not providing bins to the environment?

Humans' lives are important. So many humans are dying because of the virus. I have found a vast amount of litter around Rusland Circus including an asthma pump! This is unacceptable! Asthma pump thrown away is not good for people's health. Seeing litter around is terrible for peoples health because it could remind them of sea animals dying due to plastic. With lockdown being in placed, seeing litter around the area would make them nauseas and, I am sure, that people will think negative of Emerson Valley.

In conclusion, we politely ask for more bins around our area.
I am sure, because you are such a great person and will
do what is best for Milton Keynes, you will add more bins.
Thank you for your time.

Yours sincerely,
Rachel
