## **Welcome to Our School**

**We are a school community where everyone can flourish, both academically and personally. We have a strong emphasis on personal development at SBE; we encourage each of our students to be the best version of themselves. We have an absolute commitment to high quality lessons where all students can excel. Students have an array of fantastic experiences here, including in-school events such as our Connected Learning Projects, bringing industry led expertise and skills into our classrooms. Each year students from our Sixth Form go on to great destinations such as Cambridge and Oxford University - this year we have 6 students going to study medicine at university alongside students take up competitive apprenticeships in professional settings.**

**We have a school philosophy of 'Belong, Believe, Become'. Our school culture is community centred - we want our students, staff and families to feel a deep sense of belonging to the school. Trust is at the heart of what we do. We have great pastoral and academic support to nurture our students; each student will have a form tutor, a year leader and a progress leader. Our student support is set up to help our students excel. We want students to believe in the school and themselves. Once students belong and believe they are ready to embrace an amazing future.**

**We want our students to have a high level of academic knowledge, underpinned by key skills and attitudes that will help them to continue to grow and learn both personally and academically. Our focus is to develop these key attitudes and skills, and the knowledge that will help each student thrive.**

**Best wishes,  
Gareth McCluskey  
Headteacher**
